

ENRICHMENT OPPORTUNITIES

Explore. Create. Discover.

At St. Christina, we believe learning doesn't stop when the school day ends! Each month, members of our dedicated faculty host exciting Enrichment Programs designed for students in PreK–8th grade. From **art** and **science** to **music**, **building**, and **games**, these Wednesday afternoon sessions (2:30–3:20) give students the chance to explore new interests, spark creativity, and connect with classmates. Each month features a new rotation of engaging activities.

Open to students of all abilities, our enrichment programs are the perfect way to nurture curiosity and inspire lifelong learning.
